

WHY PARENTS LOVE SUFFOLK

Welcome to SUNY Suffolk

We recognize that whether this is your first – or last – child starting college, it's an exciting time. We know you're proud of your student's accomplishments and want to provide the right kind of support and guidance as this new chapter begins.

Suffolk
COUNTY COMMUNITY COLLEGE

Suffolk is the largest community college in the SUNY system.

At Suffolk County Community College, we strive to provide students with everything they need to succeed while pursuing an exceptional, affordable education. As the parent of a Suffolk student, you will have every reason to be excited about your student's education and future.

Academic Dedication and Individualized Attention

With campuses in Riverhead, Selden and Brentwood, enthusiastic faculty and small class sizes, Suffolk stands as a bridge to opportunity for all students. Suffolk professors focus their energies on the classroom experience, devote their time to teaching, and help students achieve their academic goals. In addition to the dedicated attention of our teaching faculty, students will receive academic advising to ensure that they stay on track.

Flexible Schedules

With a range of face-to-face classes and online learning choices, Suffolk's professors are experts at preparing students for the future. Whether attending full or part time, Suffolk offers many opportunities to enroll, including traditional semesters as well as 10-week and 7.5-week MicroMesters that provide students with opportunities to enroll in classes when they fit conveniently in their schedule.

A Complete College Experience

As the largest community college in the State University of New York (SUNY) system, you can count on Suffolk for a full collegiate experience. With recognized NJCAA (Division III) athletic programs, approximately 100 clubs and student organizations and support services, your student will have countless opportunities to grow both academically and personally.

Affordable Tuition and Scholarships

Suffolk's tuition is the most affordable in the region and our education is second to none. For students who plan to pursue a bachelor's degree, attending Suffolk provides reasonable tuition for the first two years, and gives families a chance to prepare for the financial demands of a four-year university. Each year, Suffolk awards more than \$50 million in federal and state financial aid to more than 15,000 students. Suffolk also offers a broad range of scholarships for incoming, continuing and graduating students. In fact, the Suffolk Community College Foundation awards hundreds of thousands of dollars in scholarships each year.

Transferability

Our graduates routinely transition to a variety of four-year programs at public and private universities on Long Island, around New York and throughout the nation. Our career and transfer counselors help guarantee a smooth transition for those transferring to a four-year institution in order to complete a bachelor's degree.

Career-Ready Opportunities

Suffolk proactively prepares students for the jobs of the future. The college offers today's most sought-after programs, including Cybersecurity, Nursing, Culinary Arts, Theatre Arts, Automotive Technology, Criminal Justice, and many more. The college also works closely with regional industry to ensure a pipeline of skilled and credentialed students in CNC machining, welding, soldering, medical assisting, solar installation and other growth areas to meet projected workforce demands.

Everyone Belongs

The college is proud to attract and retain students who are reflective of all of our communities. Talent and ambition, a desire to excel, and entrepreneurial spirit can be found in all communities and throughout our college.

As a parent, you have invested time, energy and resources to help your child succeed. As they take the next step, the faculty and staff at SUNY Suffolk are ready to find the classes and opportunities that make sense for your student and will help them complete their studies in a timely way.
